

URACA SmartLine

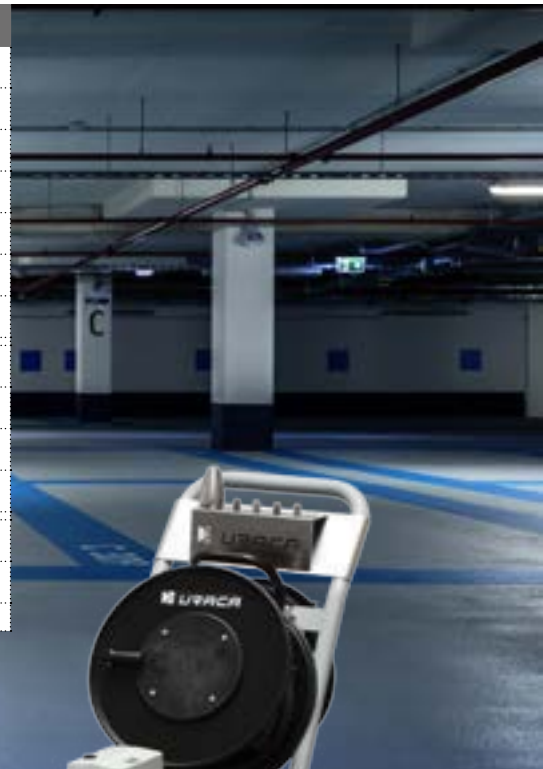

High Pressure Cleaning Units for professionals

The new URACA SmartLine product range consists of high pressure cleaning units built to the highest standards and quality. Covering a wide spectrum of industries and applications including building restoration, construction plant wash down, formwork and scaffolding cleaning, municipality activities and general industrial uses, the URACA SmartLine has been developed by professionals for professionals.

Naturally, the SmartLine range features all hallmarks associated with all URACA products: robust, reliable, flexible, safe and simple to use and maintain without the use of special tools.

The mobile all-terrain SmartLine products come equipped with standard cleaning accessories and can be mobilised rapidly for immediate operation.

Technical Data	USL 11/200-E	USL 11/350-E	USL 11/500-E	USL 10/200-G
Mode of drive	Electric drive	Electric drive	Electric drive	Gasoline Engine
Motor performance	11 kW	11 kW	11 kW	8,2 kW
at pressure stage	200 bar	350 bar	500 bar	200 bar
Flow rate	1,800 l/h	900 l/h	600 l/h	900 l/h
Water temperature	ca. 40°C	ca. 40°C	ca. 40°C	ca. 40°C
Dimensions ca.	130x70x113 cm	135x70x113 cm	135x70x113 cm	135x70x113 cm
Weight	115 kg	115 kg	118 kg	112 kg
Accessories (included in the scope of delivery)				
1 Spray gun				
1 High pressure flexible hose line DN10/PN500-15 m long with bend protection and quick-coupling				
Jet- and flat nozzle				
Accessories (optional)				
Rotating nozzle (stainless steel)				
1 bar = 14,5038 psi, 1 l/min = 0,26417 Gal./min, 1 kW = 1,3410 HP, 1 mm = 0,03937 inch
